

## Claims

What is claimed is:

5

1. A cover for a pedal, comprising:

a substantially rectangular housing;

10

an opening on a side of the substantially rectangular housing having a cross section having the approximate form of a pedal; and

an impression on a top surface of the substantially rectangular housing.

2. The cover of claim 1, wherein the substantially rectangular housing is formed of a durable foamed plastic material.

15

3. The cover of claim 1, wherein the substantially rectangular housing has a plurality of rounded edges.

20

4. The cover of claim 1, wherein the substantially rectangular housing has a side opposite the opening that forms a three dimensional curve.

5. The cover of claim 1, wherein the opening has a pair of short walls, one of the pair of short walls having a bump.

25

6. The cover of claim 1, wherein the opening has a pair of long walls, wherein one of the pair of long walls is V shaped.

7. The cover of claim 1, wherein the opening is butterfly shaped.

8. The cover of claim 1, further including an impression on a bottom surface.

9. The cover of claim 1, wherein the impression is a inverted dome.

5

10. The cover of claim 1, wherein the impression is a partial footprint.

11. A cover for a pedal, comprising:

10

an exterior shape made of a flexible material;

an opening on a side of the exterior shape having a substantially rectangular cross section; and

an impression on a first surface of the exterior shape and on a second surface of the exterior shape.

15

12. The cover of claim 11, wherein the flexible material is a durable foam plastic.

13. The cover of claim 11, wherein the exterior shape has a mirror image plane that has a truncated elliptical cross section.

20

14. The cover of claim 11, wherein the opening has a bulge.

15. The cover of claim 11, wherein the impression is a reverse dome and a partial footprint on the reverse dome.

25

16. A pedal cover, comprising:

an exterior shape have a substantially planar side and a substantially partially spherical side;

an opening formed in the substantially planar side of the exterior shape;  
and

5 a partial footprint formed in a side of the exterior shape.

17. The pedal cover of claim 16, wherein the exterior shape has a mirror image plane.

10 18. The pedal cover of claim 17, wherein the opening has a pinched rectangular shape.

19. The pedal cover of claim 18, wherein the side of the exterior shape with the partial footprint has an inverted dome surface.

15 20. The pedal cover of claim 16, wherein the partial footprint is a right footprint.
